DETAILED ACTION

The amendment after final filed on 1/30/2006 has been entered. Claims 7-20 and 23 have been canceled. Claims 28-34 have been withdrawn. Claims 1-6, 21-22, and 24-27 remain for examination.

This application is in condition for allowance except for the presence of claims 28-34 directed to non-elected without traverse. Accordingly, claims 28-34 have been cancelled.

EXAMINER'S AMENDMENT

The application has been amended as follows:

In the claims:

✓
Cancel withdrawn claims 28-34.

Allowable Subject Matter

Claims 23-27 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: Applicant asserts in the arguments dated 5/31/2005 that "the subject of the invention relates to an apparatus and method for insert-molding various electronic and

mechanical parts as part of a housing of an electrical device. (see pg. 3, 11. 27-30). In particular, independent claim 1 as amended (and similarly amended independent claim 21) recites a mobile terminal, comprising a plastic housing, a bar code reader, and a component insert-molded as part of the plastic housing such that at least a portion of the component is embedded within the plastic of the plastic housing". The examiner only partly agrees that the prior art of record fail to show the insert-molded antennas as recited in claims 23-27.
